

## Louisiana State Medical Society Alliance

**We Invite All Physicians' Spouses to Join**  
**You Can Help Us Make a Difference**  
**You Can Belong to the Family of Medicine**  
**You Can Enrich Your Life**

We are a parish, state, and national non-profit volunteer organization of physicians' spouses, medical student spouses, and physicians working in alliance with the Louisiana State Medical Society.

We are physicians' spouses and physicians working together for better health care for the citizens of our communities.

We address community health issues such as violence prevention and solutions, child safety, and health needs of the low-income families.

We support health education in a variety of ways through health fairs; by the distribution of information on health concerns, such as women's and children's health, breast cancer awareness, osteoporosis, obesity; and by providing scholarships to health career students.

We are affiliated with the American Medical Association Alliance and receive the benefits of publications, programs, and leadership training for our members.

**We need you and your talents, ideas, and support.**
